THE *FILTRATION*

THE BROADEST PORTFOLIO ON THE MARKET.

Separation with a sieving or a filtration process is **essential in today's world**.

The success of the **wide variety** of filters in a number of **different applications such as medicine, chemistry, process engineering and water purification** depends to a large extent on the **quality** of the filter or sieve fabrics. Monosuisse provides this very diverse market segment with a **complete product range** in polymers, additives and diameters.

Raw materials:

FEATURES

- Customized yarn lengths (on request)
- Specific abrasion behavior if needed
- Specific modified yarn properties (hydrolysis resistance, UV resistance, flame resistance, heat resistance, chemical resistance)
- Broad spun dyed color portfolio
- Yarn properties can be adjusted on request
- Monofilaments with excellent diameter regularities for precise mesh openings

FURTHER SERVICES

- Customized high quality products with short lead times
- Measured yarn length for warp
- RAPIDS and/or PPAP if needed

WHAT ELSE DO WE OFFER?

- Lab services
- Tailor-made solutions
- NCAs if needed
- Flexibility (Competitive lead times)
- Stock services
- R&D collaboration

HOW DO WE HELP YOUR BUSINESS?

- Our technical support will help your developments
- Our flexibility helps to fulfill your customers needs on time

HOW DO WE SOLVE YOUR PROBLEMS?

- Offering exclusive approach
- Offering a partnership with the market leading yarn supplier

Monosuisse: "Our expertise, flexibility and quality will take you to the next level in the filtration industry."
