

"THE TECHNICAL EXPERT WITH THE BEST PRICE-QUALITY RATIO"

# GEOTEXTILE & **AGRICULTURE**

THE *GEOTEXTILE*  
& *AGRICULTURE*

THE HIGHEST KNOW-HOW IN ITS CLASS.

[WWW.MONOSUISSE.COM](http://WWW.MONOSUISSE.COM)

# THE *GEOTEXTILE* & *AGRICULTURE*

THE HIGHEST KNOW-HOW IN ITS CLASS.

**Lightweight** and **durable products** are used in a wide variety of industries, from **geotextile** and **agriculture**, to **ropes**, **nets** as well as for **narrow fabrics**.

The product is primarily for **outdoor** use where **durability and persistence** are needed over time. All applications require **high quality standards** and a long service life whether **underground, underwater** or in **nature**. All major manufactures in the industries have been relying for decades on high-quality monofilaments yarns (mostly HDPE & PP) with the **best quality/price ratio** from Monosuisse.

## Our contribution to sustainable solutions:

- Reduced CO2 footprint due to nearby customer manufacturing
- Reduced CO2 footprint by means of recycling/reusing waste from our customers
- Availability of bobbins/spools made of recycled polymers

## FEATURES

- Very high abrasion resistance
- Staying flexible
- Lighter than water
- Outdoor working temperature range: -50°C to 95°C
- Resistant to extreme environments
- Standard & customized colors
- UV-resistant (on request)
- Flame resistant (on request)

## FURTHER SERVICES

- Customized products
- Returnable spools
- Transport both ways

## WHAT ELSE DO WE OFFER?

- Technical service
- R&D expertise
- RAPIDs
- Laboratory service

## HOW DO WE HELP YOUR BUSINESS?

- Excellent quality due to stable and repetitive production
- Improved, complex portfolio
- Short lead time

## HOW DO WE SOLVE YOUR PROBLEMS?

- Continuous quality improvement
- Flexibility – fast reaction time
