

"OUR RELIABILITY WILL HELP YOU SUCCEED IN THE JUNGLE OF REGULATORY AFFAIRS"

WWW.MONOSUISSE.COM

THE **MEDICAL APPLICATION**

CUSTOMIZED YARNS IN THE HIGHEST QUALITY.

The medical market is a very demanding one. The applications are many. Standards are high, and many restrictions apply. Monosuisse is able to supply into this market thanks to its flexibility, ability to customize, R&D, and all kinds of additional exceptional services offered. Regulatory affairs and a thorough selection of raw materials guarantee many compliances upon request. Production records are kept for longer time compared to standard products.

Upon request Monosuisse offers no change agreements, quality assurance agreements, mutual NDAs and its teams are ready to help customers develop specific products. The most requested products are (but not limited to) PP, PET and PLA monofilaments and PET multifilaments. The size range of the monofilaments is typically 0,065 to 0,20 mm, while the PET multifilaments typically range between 20 and 150 dtex, flat or twisted. Colors are available upon request.
