

"PROUD TO BE AN INNOVATIVE AND RELIABLE PARTNER IN PMC"

A large-scale photograph of a paper mill. A massive, continuous roll of yellowish-brown paper is being processed by machinery. The machinery is complex, with various rollers, pipes, and structural elements visible. The lighting is bright, highlighting the texture of the paper and the industrial environment.

# THE *PMC*

WIDEST PORTFOLIO IN ITS CLASS.

We at Monosuisse are specialists in thermoplastic **monofilament** and **multifilament** yarns for high quality technical applications. These yarns serve as starting material for the production of fabrics which are integrated in industrial processes. Particularly, the paper machine clothing (PMC) industry has been **trusting in our quality** for many decades. Our portfolio offers the **whole range of products** for **forming fabrics, press felts and dryers**. In addition to our extensive standard range we also offer specialities to meet customers' **specific requirements**. The properties of these **plain or twisted** monofilaments used in the PMC industry have a crucial influence on the paper grade produced and its quality.

## FEATURES

### FORMING

- Full diameter range starting from 0.08 mm
- Full range of PET and PA6 yarns in our standard program
- Exact running lengths especially for warp yarns

### PRESS FELTS

- Full range of standard twisting (in-house)
- Optional thermal & chemical stabilized products
- Different viscosity levels available
- Raw materials: PA6, PA6.6 & PA6.10

### DRYERS

- Customized levels of hydrolytic stabilization for PET yarns
- Anti soil products
- Wide variety of profile shapes and dimensions
- Wide range of PPS yarns
- Weaving and spiral yarns

## FURTHER SERVICES

- Returnable spools
- Ecofriendly packaging
- Twisting
- Traceability of material flow

## WHAT ELSE DO WE OFFER?

- Lab services
- Global representatives
- Technical support
- Declarations
- Consignment stock
- Customized products

## HOW DO WE HELP YOUR BUSINESS?

- Full portfolio
- R&D partner
- Strategic production locations

## HOW DO WE SOLVE YOUR PROBLEMS?

- Technical service & support
- Optimized products for the process of the customers

**Monosuisse: "Proud to be an Innovative and Reliable Partner in PMC"**
