

MECHANICAL
RUBBER
GOODS

INNOVATIVE CUSTOMIZED PRODUCTS IN PREMIUM QUALITY.

In the world of mechanical rubber goods, durability, elasticity, and long-term performance are non-negotiable. At Monosuisse, we supply the yarns that make these qualities possible—engineered multifilaments designed to enhance reinforcement layers in high-performance MRG applications.

Whether used in timing belts, V-belts, hoses, or curing tapes, our yarns deliver the mechanical strength, adhesion, and dynamic flexibility needed to meet the toughest operational demands. Our multifilaments are optimized for compatibility with rubber matrices.

What sets us apart is not only the quality of our materials, but the precision behind them. With roots in Switzerland and a legacy of technical textile innovation, Monosuisse combines tradition with advanced production capabilities.

Monosuisse is more than a supplier. We're your partner in reinforcing performance, with Swiss precision at the core of everything we do.

Features

- ✓ Thermal stability
- ✓ From 17 dtex to 165 dtex
- ✓ High tenacity
- ✓ From 1dpf to 12dpf

Additional services

- ✓ Product customization
- ✓ Product development support
- ✓ On-site technical support
- ✓ PPAPs, FMEAs
- ✓ Stock services

What else do we offer?

- ✓ R&D expertise & laboratory services
- ✓ Downstream integration (Twisting)
- ✓ Co-development projects
- ✓ Customized technical agreements
- ✓ Raw material stewardship

How do we help your business?

- ✓ Comprehensive product selection through versatility and broad assortments
- ✓ Support in planning and forecasting

How do we solve your problems?

- ✓ Support in product design and development
- ✓ Product range stewardship
- ✓ Downstream integration, when it applies
