

PAPER
MACHINE
CLOTHING

WIDEST PORTFOLIO IN ITS CLASS.

At Monosuisse, we understand that your success depends on consistency, reliability, and precision in every component of your production. That's why leading manufacturers in the Paper Machine Clothing (PMC) industry have trusted our monofilament yarns for decades — because your end-product quality starts with ours. You need yarns that perform reliably in demanding conditions, support optimal machine operation, and help produce the paper grades your customers expect. Our yarns do just that. Whether you're producing forming fabrics, press felts, or dryer screens, we provide the full range of high-quality, thermoplastic yarns tailored for every stage of the process.

Our single and twisted monofilaments are engineered with precision, because we know their mechanical, thermal, and chemical properties have a direct impact on the performance of your fabrics and the quality of your paper. That's why we invest in long-term partnerships, offering more than just materials — we offer knowledge, responsiveness, and solutions you can build on. At Monosuisse, your requirements are our starting point.

Features

- ✓ FORMING Full diameter range from 0.08 mm
- ✓ FORMING Full range of PET & PA6 yarns
- ✓ PRESS FELTS Full range of standard twisting
- ✓ PRESS FELTS Thermally & chemically stabilized
- ✓ DRYERS Customized levels of hydrolytic stabilization for PET yarns
- ✓ DRYERS Wide variety of profile shapes and dimensions

Additional services

- ✓ Reusable spools
- ✓ Ecofriendly packaging
- ✓ Twisting
- ✓ Raw material and production traceability

What else do we offer?

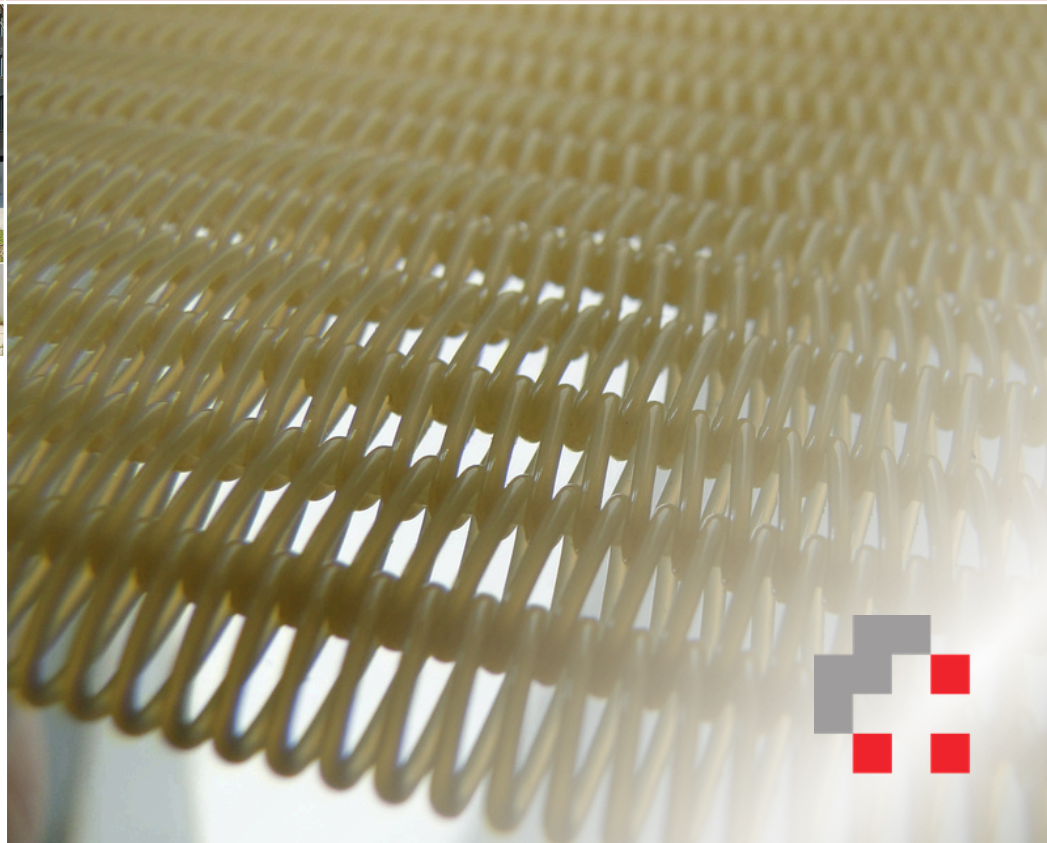

- ✓ Advanced laboratory services
- ✓ Global representatives
- ✓ Technical support
- ✓ Product declarations
- ✓ Consignment stock
- ✓ Product customization

How do we help your business?

- ✓ Full portfolio provider
- ✓ R&D partner
- ✓ Strategic production locations

How do we solve your problems?

- ✓ Technical service & support
- ✓ Optimized products for our customers process
