

# PROTECTIVE SLEEVES

# OFFERING THE BEST QUALITY TO PRICE VALUE.

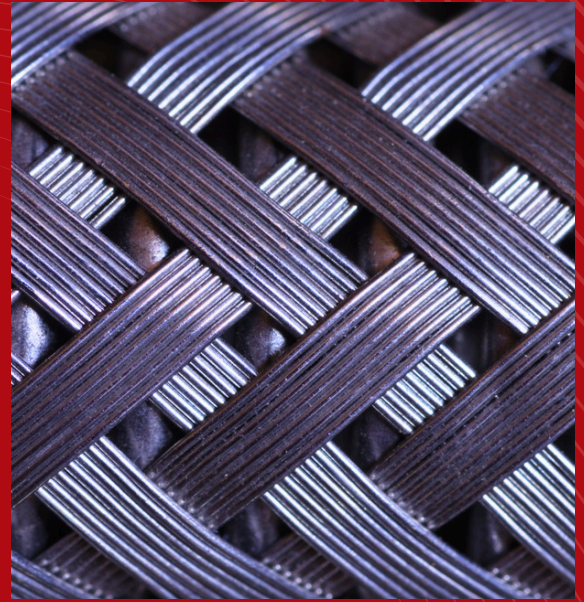

The market for protective sleeves spans a wide range of applications – from land, air, and sea in the automotive and transportation sectors to fittings in sanitary environments such as sinks, showers, and kitchens. Across all these industries, the demand is rising for reliable, high-performance solutions that are not only technically advanced but also adaptable to specific requirements.

At Monosuisse, we develop protective sleeve yarns tailored to your exact needs, taking into account your tensile strength, color fastness, flame and heat resistance, as well as abrasion resistance requirements.

Every product is custom-made in close collaboration with your team to ensure development time line meets the demands of a fast-evolving market.

Our range includes PET and PA yarns, as well as high-performance materials like PEEK, PPS, and PVDF.

With a focus on quality, customization, and partnership, Monosuisse is your trusted development partner.

## Features

- ✓ Thermal stability
- ✓ Flame resistance
- ✓ PET monofilaments from 0.18 mm to 0.40 mm
- ✓ PA 6.6 monofilaments from 0.20 mm to 0.38 mm
- ✓ Colors: natural, black, grey, orange, blue, red, purple

## Additional services

- ✓ Stock services
- ✓ Product customization
- ✓ PPAP
- ✓ Technical assistance available onsite
- ✓ Technical assistance on new developments

## What else do we offer?

- ✓ Regulatory documentation
- ✓ Contingency plans
- ✓ R&D expertise/Laboratory services
- ✓ Raw material safety stock
- ✓ Flexibility
- ✓ Long-term purchasing contracts for raw materials

## How do we help your business?

- ✓ Experience with annual supply agreements
- ✓ Production flexibility to help you meet timely customer demands
- ✓ Cross calibration with customer R&D to develop new products

## How do we solve your problems?

- ✓ Globally located and locally represented to remain available to our customers
- ✓ Continuously focused on quality improvement
- ✓ Knowledgeable technical service team that understands your production needs
