

SPACER
FABRICS

E-SPACE® - PIONEER OF ITS CLASS.

At Monosuisse, we understand that today customers request more: More comfort, more sustainability, and more innovation. This is why we have developed a new class of monofilament yarns allowing you to design spacer fabrics that offer smarter, more sustainable, three-dimensional structures than traditional foam filling. Whether you design Automotive interiors, Home textiles, Medical products, Sports goods, or other advanced technical textiles, our E-SPACE® monofilaments deliver what matters most: Unmatched resilience, exceptional comfort, superior breathability, and light weight with a better environmental footprint.

Thanks to our cutting-edge production technology, E-SPACE® offers a wide range of diameter options and sharply tuned elastic properties providing greater resilience, and longer-lasting performances compared to standard monofilaments.

If you are looking for enhanced comfort, optimized performance, and sustainable innovation, Monosuisse is ready to help you lead the way.

Features

- ✓ Dedicated E-SPACE® branding
- ✓ High resilience
- ✓ Higher stiffness
- ✓ Customizable features and colors
- ✓ Sustainable solutions (Recycled, Bio-Based Materials)
- ✓ Better shape recovery at high temperature with E-SPACE® Plus

Additional services

- ✓ Production flexibility to meet required lead times
- ✓ Responsive customer service
- ✓ Consignment stock options
- ✓ Product customization

What else do we offer?

- ✓ Regulatory documentation
- ✓ Laboratory expertise
- ✓ Commitment to remaining the market leader
- ✓ Traceability of recycled raw material options

How do we help your business?

- ✓ Long-term purchasing contracts
- ✓ Optimized products for our customers process
- ✓ Supply flexibility and security through global presence

How do we solve your problems?

- ✓ Production flexibility to help you meet timely and ever changing customer demands
- ✓ Dedicated production capacity
- ✓ Superior response time and excellent customer service
